

Super-Deep Continental Drilling and Deep Geophysical Sounding

Filesize: 5.05 MB

Reviews

*This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.
(Derick Brekke)*

Book Condition: New. Publisher/Verlag: Springer, Berlin | The articles in this volume were selected from a series of reports delivered in the Soviet Union at Yaroslavl during the International Seminar "Super-deep drilling and deep geophysical research", which was organized and held in August 1988 by the Ministry of Geology of the USSR, jointly with the Inter-Union Commission on the Lithosphere. One of the most important problems of modern geology, is the state and prospects of further development of deep continental structure investigations, was discussed at the seminar with the participation of 245 scientists and specialists from 19 countries. At the plenary and sectional meetings of the seminar, 83 reports were delivered, discussions on the most interesting problems were organized, the exchange of ideas between the leading scientists a round table took place in discussion. The distinctive feature of the present collection of articles is the wide scope of the investigation of the Earth's crust. The reports elucidate such subjects of world importance as (1) achievements in implementation of major scientific programs investigating deep Earth structure and plans for their further materialization; (2) theoretical problems of carrying out geological-geophysical explorations and drilling operations; and (3) new approaches to the study of the Earth's interior. The results of deep investigations of individual countries and organizations are considered, and concrete technical elaboration, methods of work execution, etc. are discussed. | Continental Drilling: A Key Project of the International Lithosphere Program (ILP).- Continental Drilling: A Key Project of the International Lithosphere Program (ILP).- Exploring the Continental Crust Jointly by Drilling and by Deep Seismic Sounding.- Problems of Deep Geology of the USSR.- The Applicability of Geothermal Drilling Experience to Super-Deep Drilling.- Deep Studies of the Ore-Forming Systems by Drilling.- Cajon Pass Scientific Drilling Project: Drilling Overview.- Scientific Deep Drilling...
