

Handbook of Communication in Oncology and Palliative Care

By -

Oxford University Press, United Kingdom, 2011. Paperback. Book Condition: New. 246 x 172 mm. Language: English . Brand New Book. This comprehensive text provides clinicians with practical and evidence-based guidelines to achieve effective, patient-centered communication in the areas of cancer and palliative care. Written by an outstanding panel of international experts, it integrates empirical findings with clinical wisdom, draws on historical approaches and presents a state-of-the-art curriculum for applied communication skills training for the specialist oncologist, surgeon, nurse and other multi-disciplinary team members involved in cancer care today. In this book communication is broken down into key modules that cover the life-cycle of cancer care. They include coverage of diagnosis and treatment including clinical trials, empathic support in response to distress, transition to survivorship or palliative therapies, discussion of prognosis, conduct of family meetings, and care of the dying. Complementary training of patients in their communication with the doctor completes the interactive dyad. The art of teaching, impact of gender and power in the consultation and the ethical context are carefully considered. Special communication challenges include discussion of genetic risk, rehabilitative and salvage surgery, promotion of treatment adherence, unanticipated adverse outcomes, intercultural issues, fertility and sexuality. The value of decision...

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
